FIRST AID AND MEDICINES POLICY

AMENDMENTS

The Policy Document has been amended in light of updated guidance on supporting pupils with medical conditions, drafted by the Department of Education for maintained schools and proprietors of academies in England. It is the responsibility of the Head Teacher to ensure that the complete amendment is incorporated into all copies of the document and recorded accordingly on the Amendment Sheet. Copies of pages made redundant by the amendment are to be disposed of immediately and not to be retained for any reason.

FIRST AID AND MEDICINES POLICY

DISTRIBUTION OF COPIES

Master Copy	Head teacher
Copy One	Lead First Aider
Copy Two	All First Aiders
Copy Three	School website

The Policy Document will be accessible to parents if requested or deemed necessary

STATEMENT OF INTENT

The Governors and Head Teacher of The Norton Knatchbull School believe that ensuring the health and welfare of staff, pupils and visitors is essential to the success of the school.

We are committed to:

- Providing adequate provision for first aid for pupils, staff and visitors.
- Ensuring that pupils with medical needs are fully supported at school.

Procedures for administering medicines and providing first aid are in place and are reviewed regularly.

We will ensure all staff (including supply staff) are aware of this policy and that sufficient trained staff are available to implement the policy and deliver against all individual healthcare plans, including in contingency and emergency situations.

We will also make sure that the School is appropriately insured, and that staff are aware that they are insured to support pupils in this way.

In the event of illness, a staff member will accompany the pupil to the school office/medical room. In order to manage their medical condition effectively, the School will not prevent pupils from eating, drinking or taking breaks whenever they need to.

Arrangements

Student Receptionist

The School employs a student reception; this person will have the lead role in ensuring that pupils with medical conditions are identified and properly supported in school, including supporting staff on implementing a pupil's Healthcare Plan. The student receptionist will liaise with parents/carers and where relevant, healthcare professionals, and will advise on any training needs for school staff. Suitable cover will be provided in the absence the Student Receptionist.

The First Aid Team

The school has a team of level 3 and level 2 trained staff who our proactive in looking after the Wellbeing of all staff and students, when they are called upon to do so.

They are required to retrain every three years to keep their knowledge up to date with the change first aid practices.

The school has level 3 trained first aiders who control medication use which is supplied by the parent or/carer. Further specialised training may be required and with be sourced when the need arises

First Aid Boxes

The first aid posts are located in:

- Student Reception
- Main reception
- High Risk Departments. Science, PE and DT

Medication

Pupils' medication is stored in:

- First aid room.

First Aid

In the case of a pupil accident, the procedures are as follows:

- The member of staff on duty calls for a first aider; or if the child can walk, takes him/her to a first aid post and calls for a first aider.
- The first aider administers first aid and records details in our treatment book.
- If the child has had a bump on the head, they must be given a "bump on the head" note.
- Full details of the accident are recorded in our accident book
- If the child has to be taken to hospital or the injury is `work' related then the accident is reported to the Governing Body.
- If the incident is reportable under RIDDOR (*Reporting of Injuries, Diseases & Dangerous Occurrences Regulations 2013*), then as the employer the Governing Body will arrange for this to be done.

School Insurance Arrangements

RPAAdvice@willistowerswatsonsecure.com

School Visits

In the case of a **residential visit**, the residential first aider will administer First Aid. Reports will be completed in accordance with procedures at the Residential Centre. In the case of **day visits** a trained First Aider will carry a travel kit in case of need.

Administering Medicines in School

Prescribed medicines may be administered in school by a staff member appropriately trained, where it is deemed essential. Most prescribed medicines can be taken outside of normal school hours. Wherever possible, the pupil will administer their own medicine, under the supervision of a member of staff.

If a child refuses to take their medication, staff will accept their decision and inform the parents accordingly.

In all cases, we must have written parental permission outlining the type of medicine, dosage and the time the medicine needs to be given. These forms are available in Student Reception.

Staff will ensure that records are kept of any medication given.

Storage/Disposal of Medicines

Wherever possible, children will be allowed to carry their own medicines/ relevant devices or will be able to access their medicines in the Student Reception for self-medication, quickly and easily. Pupils' medicine will be locked away out of pupil's access. On school trips medication will be held by the trip leader. It is the responsibility of the School to return medicines that are no longer required, to the parent for safe disposal.

Asthma inhalers will be held by the school for emergency use, as per the Department of Health's protocol.

Accidents/Illnesses requiring Hospital Treatment

If a child has an incident, which requires urgent or non-urgent hospital treatment, the school will be responsible for calling an ambulance in order for the child to receive treatment. When an ambulance has been arranged, a staff member will stay with the pupil until the parent arrives, or accompany a child taken to hospital by ambulance if required.

Parents will then be informed and arrangements made regarding where they should meet their child. It is vital therefore, that parents provide the school with up-to-date contact names and telephone numbers.

Defibrillators

Defibrillators are available within the school as part of the first aid equipment. First aiders are trained in the use of defibrillators.

- Main Reception
-

The local NHS ambulance service have been notified of its location.

Pupils with Special Medical Needs – Individual Healthcare Plans

Some pupils have medical conditions that, if not properly managed, could limit their access to education.

These children may be:

Epileptic

Asthmatic

Have severe allergies, which may result in anaphylactic shock

Diabetic

Such pupils are regarded as having medical needs. Most children with medical needs are able to attend school regularly and, with support from the school, can take part in most school activities, unless evidence from a clinician/GP states that this is not possible.

The School will consider what reasonable adjustments they might make to enable children with medical needs to participate fully and safely on school visits. A risk assessment will be used to take account of any steps needed to ensure that pupils with medical conditions are included.

The School will not send pupils with medical needs home frequently or create unnecessary barriers to pupils participating in any aspect of school life.

However, school staff may need to take extra care in supervising some activities to make sure that these pupils, and others, are not put at risk.

An individual health care plan can help schools to identify the necessary safety measures to support pupils with medical needs and ensure that they are not put at risk. The School appreciates that pupils with the same medical condition do not necessarily require the same treatment.

Parents/guardians have prime responsibility for their child's health and should provide schools with information about their child's medical condition. Parents, and the pupil if they are mature enough, should give details in conjunction with their child's GP and Pediatrician. The school receptionist may also provide additional background information and practical training for school staff.

Procedure that will be followed when the School is first notified of a pupil's medical condition

1. A Health Care Plan will be written and put in place (Form 2).
2. Information will be entered on to the sites administration system (Arbour)
3. Parental agreement for school to administer medicine will be sort (Form3)
4. A record of regular medicine administration will be maintained by a trained member of staff. (Form 4)
5. Additional training may be required and will be sourced if appropriate.

This will be in place in time for the start of the relevant school term for a new pupil starting at the School or no longer than two weeks after a new diagnosis or in the case of a new pupil moving to the School mid-term.
