

What independent learning looks like in psychology

<p>1. After each lesson review your lesson notes and make a note of anything you don't understand so that you can ask about this in the next lesson. Locate and read the relevant material in the AQA Year 1 online textbook - http://illuminate.digital/aqapsych1/. Add anything extra to your notes that you might have missed out and complete the end of spread quizzes (click on the Q). To extend yourself, click on the E's for extension tasks and thoughts. Have a go at the Check It questions at the bottom of right hand page.</p>	
<p>2. Regularly use psychology revision site, locate the pages relevant to the material that you have been covering in lessons. Add anything extra or interesting information to your notes.</p> <p>Links to other useful information can be found on Edmodo as well as the slides from the lesson.
